

## **NovoPedics Founders Recognized with 2020 EJI Excellence in Medicine Award**

NovoPedics Founders Charles J. Gatt, Jr., MD and Michael G. Dunn, PhD, have been named recipients of the 2020 Excellence in Medicine Awards “Special Award for Innovation.”

The Excellence in Medicine Awards are named after Edward J. Ill, MD, a New Jersey physician who was a pioneer in promoting continuing education in ways that set the national standard. The awards pay tribute to New Jersey's physicians, healthcare professionals and community leaders who exemplify outstanding competence, leadership and dedication to their profession.

Dr. Gatt and Dr. Dunn were chosen to receive this special award in recognition of their innovations in developing **MeniscoFix™**, an implantable medical device intended to restore mobility to patients suffering from severe meniscal knee injuries.

The 2020 Excellence in Medicine honorees will be celebrated at an event on May 5, 2021. All proceeds from the awards program are dedicated to the Edward J. Ill Excellence in Medicine Scholarship Fund which was created to support healthcare education and to retain medical talent in New Jersey. By acknowledging the accomplishments of physicians, leaders and scientists in the prime of their careers, the Foundation inspires future healthcare providers to strive to make their own unique contributions.
